

## Category overview:

# International Dilmun Environmental Award

Sponsored by GPIC

## Entrants are required to...

---

Register for and complete one of the following main RoSPA Award entry categories, which allow a free entry into the International Dilmun Environmental Award Category:

- [Achievement Award](#)
- [Sector Award](#)
- [Fleet Safety Award](#)

Ahead of the January 22, 2025 competitive entry deadline, complete the separate International Dilmun Environmental Award category submission.

The International Dilmun Environmental award focuses on environmental sustainability management, with a primary reference period of the 2024 calendar year question set.

## Category information

---

### Section 1: Organisation profile

- A brief organisation profile is required, outlining the scope of the submission.

### Section 2: Environmental policy and reporting

- Provide organisation's vision, mission, and values in connection with environmental sustainability principles.
- Provide Environmental Policy, which must be signed and dated. Where available, your sustainability policy should also be shared.
- Demonstrate how environmental sustainability management performance is reported.

**Please note:** This category overview should only be used as a reference for considering entering a RoSPA Achievement Award. This list is not exhaustive, and registered entrants receive comprehensive guidance within the online entry system.

### Section 3: Corporate environmental sustainability management

- Demonstrate how the environmental sustainability is considered as part of effective business management processes:
  - Discuss top-management commitment to environmental sustainability.
  - What roles and responsibilities are assigned for environmental sustainability.
  - What indicators or SMART objectives are used to assess and track performance.
- Indicate how experience is shared, and training used to promote good management practices in connection with environmental sustainability management.
- Detail partnerships and collaboration strategies.
- Describe the regime for environmental monitoring and reporting, and provide evidence of its implementation.
- How do you work with your supply chain to adhere to environmental sustainability standards.
- What are you doing to contribute to the United Nations Sustainable Development Goals?
- Note: Here we are looking at your high-level alignment, in next section you can report your practical measures.

### Section 4: Practical initiatives and innovation

A short summary is required on how your organisation contributes in a practical way to each of the following subjects:

- Carbon and greenhouse gas emissions monitoring, and reduction - including energy management.
- Implementing the waste hierarchy, notably prevention, reuse and recovery.
- Hazardous material minimisation (if appropriate).
- Pollution Minimisation.
- Product Development: For Manufacturing or Construction Sectors: Product Development e.g. eco-product / build, environmental labelling. For Utility/Energy/Site/Estate.
- Management: Environmental Impact Assessment and Mitigation.
- Biodiversity Action Plans or habitat improvements (direct or supply chain).
- Supply Chain Improvement.
- Sustainable Transport / Green Fleet Logistics.
- For three of these subjects, the narrative must be expanded on in more detail.

### Section 5: Enforcement experience

Provide details of any enforcement action, and how your organisation has responded to it.

## How the entries are assessed

---

Assessors help identify a shortlist of the top-scoring entries, using a scoring matrix based on the published criteria to be covered. The shortlist is then reviewed by a separate judging panel, comprised of environmental professionals appointed by RoSPA.

The resulting award is a single trophy for one overall winner in the category. Additional commendations may be made at the judges' discretion.

The selection of a winner is based in part on quantitative scores relating to how well the entrant has fulfilled the category criteria, but judges will also consider a submission's merits from a qualitative perspective.
